

WALK EASY[®]

AGGRESSOR DETERRENT

UK PATENT: GB2321995

Unique
'dual-
action'

Made in the U.K.

* Simple to use, just point towards the aggressor(s) and press the top to distract them with the repulsive odour and also invisibly mark them for any subsequent investigation or action required

This device can be utilised by Night Clubs, Pubs, Bars and Restaurants etc for use by their staff against troublemakers. Also suggested for use by security staff in hospital A & E Departments.

The unique *Walk Easy* 15-331 BOUNCER *dual-function* Aggressor Deterrent has been specially designed in our Cambridge factory so that upon activation not only does it emit a cloud of repellent odour but it also produces an ultra violet tracer, which is 'invisible', adheres to the skin and clothing of an aggressor(s) and is visible for identification purposes under an ultra violet light as used by the Police.

The BOUNCER has been designed specifically as a protective device, and is a logical development of our other propellant powered alarms whereby the the ultraviolet tracer is expelled in the form of an invisible cloud. Great care has been taken to avoid the use of noxious substances in the product formulation and as a result, none of the materials used are classified as a controlled substance under the COSHH Regulations., and the alarm does NOT contain any toxic, flammable, hazardous or environmentally harmful materials.

OPERATION

By pressing down the actuator two functions will come into effect:

- * The release of a cloud of extremely unpleasant odour
- * The release of an ultra-violet tracer which is 'invisible' and adheres to the skin and clothing of an assailant, but becomes visible under an ultra violet light as used by the Police.

NOTE: The WE-331 BOUNCER Aggressor Deterrent has been designed so that it is able to operate at any angle, even upside down.

Refer to reverse of this page for further details

WALK EASY 15-331 BOUNCER

AGGRESSOR DETERRENT

SPECIFICATION

Dimensions: 37mm x 105mm **Maximum weight:** 65 gms **Duration:** Approximately 3 minutes
Propellant: Conforms to Euro Directive 3093/94 for aerosol propellants and has an ozone depletion potential of zero.
Ultra-Violet tracer: Non-Toxic. Repulsive odour is a multi-component mixture of organic substances which comply with UK and EC 'flavour & fragrance' Safety Legislation which confirms that it is not in any way detrimental to health.

A Safety Data Sheet is available upon request. Conforms to BS6800:86

**DO NOT ACTIVATE THE ALARM
UNNECESSARILY.
KEEP OUT OF THE REACH OF CHILDREN**

The manufacturer and its agents will not accept any responsibility for any loss, damage or personal injury sustained whilst in the possession of this product whatever the cause or reason.

Design Registrations: UK: 2004051. France: 904381. Benelux: 20282-00. Germany: M90 04 516.5.
Canada: 68365. USA: 325 357.
Patent No.: 2321995

N.B. If the alarm is shaken whilst the cap is pressed down the discharge rate of the ultra-violet tracer will be increased thus intensifying the dispersion of the ultraviolet tracer.

Other products in the Walk Easy range of personal attack alarms
