

'FEND-OFF'

Portable, ultrasonic, 'Aggressive Dog' Deterrent and Dog Training Aid, audible to dogs up to 15 metres (50 feet) away and with additional Personal Alarm and Torch facilities

SMALL, LIGHT AND COMPACT

dimensions: 95 x 62 x 38 cms (3.7 x 2.4 x 1.5 inches)

weight 123gms (4.3 ounces) including battery

PUSH BUTTON TO EMIT CORRECTIVE ULTRASONIC BURST TO DETER AGGRESSIVE DOGS FROM APPROACHING (AUDIBLE TO DOGS BUT NOT TO HUMANS)

IN ADDITION TO THE ULTRASONIC BEAM TO PROTECT YOU AGAINST DANGEROUS DOGS, THE DEVICE INCORPORATES A BUILT-IN 130dB AUDIO SIREN PERSONAL ALARM TO PROTECT YOU AGAINST HUMAN ATTACKERS, AND A TORCH FACILITY.

SPORTY AND ATTRACTIVE DESIGN FITS COMFORTABLY IN THE HAND OR CAN BE CLIPPED TO POCKET OR BELT

USE AS A TRAINING AID FOR YOUR OWN DOG BOTH INDOORS AND OUTDOORS. TRAIN TO STOP JUMPING ON FURNITURE, BAD CHEWING HABITS, BARKING AND OTHER UNWANTED ACTIVITIES.

THE ULTRASONIC BEAM WILL PENETRATE THROUGH THE GLASS OF A HOUSE WINDOW OR GLASS PATIO DOOR TO ENABLE YOU TO CONTROL YOUR DOG IN THE GARDEN WHILE YOU REMAIN IN THE HOUSE

RUNS ON A SINGLE 9 VOLT (PP3) BATTERY (INCLUDED)

Thank you for purchasing the FEND-OFF from Walk Easy Ltd.. This unit has been designed to release an ultrasonic wave that can be clearly heard by dogs for up to 50 feet (15 metres). The ultrasonic sound emitted by the FEND-OFF gets the dogs attention and helps stop them in their tracks. The sound is very penetrating and causes discomfort to dogs, but is inaudible to humans.

The FEND-OFF can be used as a training device. No more dogs digging through your rubbish or tearing up your garden! Teach your dog the furniture they are barred from! Use the high pitch signal to train a dog and correct its behaviour.

The FEND-OFF includes a very loud audio siren Personal Alarm - to ward off human attacks at the press of a button. The FEND-OFF also has a torch facility. The device measures 95mm x65mm x40mm and weighs 123gms including the PP3 battery.

The FEND-OFF ultrasonic sound output is not harmful to either humans or animals. If the intensity of the torch beam weakens this indicates that it is time to replace the battery in the device.

DIRECTIONS FOR USE: Please read these directions thoroughly before use.

INSTALLING THE BATTERY: 1. Slide off cover on rear of device to replace the single 9 volt battery (type PP3). 2. Slide cover back into place.

OPERATION:

1. To activate the ultrasonic wave beam, press and hold the sonic button (See Illustration). To deactivate the ultrasonic wave, release the sonic button.
2. To turn on the torch, press and hold the side button (See Illustration). To turn off the torch, release the side button.
3. To sound the personal alarm, press and release the personal alarm button to activate (See Illustration). To turn the personal alarm off, press and release the personal alarm button again.

When worried about an approaching animal just point the FEND-OFF and press the 'sonic button' for a few seconds at a time to transmit intermittent bursts of an ultrasonic frequency sound that is audible and causes discomfort to animals but not to people and can be detected by animals at a distance up to 50 feet. However the most effective range is 6 to 10 feet and the closer the animal is to the FEND-OFF the louder the sound is to them. The normal reaction is for an aggressive dog to stop and in most cases to retreat, although some dogs may retain an aggressive manner at a distance. It should be noted that the FEND-OFF may have a much less noticeable effect on your own passive dog.

The ultrasonic device is used by (among others) court officials and bailiffs, meter readers, police and social services, telephone engineers, walkers, cyclists and joggers.

The FEND-OFF, excluding battery, is guaranteed against defects in materials and workmanship in normal use for a period of one year from the date of purchase. This guarantee is only valid if the alarm has not been altered, modified or repaired by anyone other than the manufacturer, and is also invalidated where a replacement battery has been incorrectly fitted. This guarantee does not affect your statutory rights.
