

# WALK EASY® TRIDENT

## Multi-Functional Personal Attack Deterrent

The unique Walk Easy Trident deterrent has three simultaneous functions:

- ★ **A 138 DECIBEL ALARM**
- ★ **AN ULTRAVIOLET TRACER**
- ★ **A REPULSIVE ODOUR**

\* **A 'lock-down' facility for a continuous sound output**

★ **Based upon the original Walk Easy 1-900 personal alarm which has sold in excess of 6 million units.**

The Trident Attack Deterrent has been specially designed so that upon activation not only does it produce an ear-piercing 138 decibel sound output, but it also releases a repelling odour and an ultraviolet tracer. These three features act to help the individual against a personal attack by creating an environment for the attacker that is unpleasant and encourages them to flee the scene of their potential crime.

Upon activation, not only is an ear-piercing 138 decibel sound emitted which acts as both a means of disorientating the assailant, and as a 'shout' for help, but also an unpleasant odour and particles of ultraviolet tracer are discharged from the actuator in a radius of 40 cms in front of the alarm.

The repellent odour acts to discourage the attacker, and it can also leave a distinguishable smell on the attacker's skin and clothing which are also marked by the ultraviolet tracer, leaving no obvious mark except when it is exposed to an ultraviolet light source such as those used by the Police.

Together, the features of the Trident alarm produce an undesirable environment immediately surrounding the user and provides a combined means of helping to protect the user against the possibility of attack.

The Walk Easy Trident Attack Deterrent is functionally guaranteed for a period of 12 months.

Made in the U.K.

# WALK EASY®

## WE-333 TRIDENT DETERRENT ALARM

The Trident deterrent (WE-333) has been designed specifically as a protective device, and is a logical development of our other propellant powered alarms whereby the expelled propellant is in the form of an invisible odourless cloud but in the case of the Trident the cloud carries a repulsive odour, whilst the ultraviolet tracer has a separate outlet.

Great care has been taken to avoid the use of noxious substances in the product formulation and as a result, none of the materials used is classified as a controlled substance under COSHH Regulations.

### OPERATION

By pressing down the alarm head three functions will come into effect:

- 138 decibel sound output
- The release of a repulsive odour
- The release of an ultra-violet tracer which 'invisibly' adheres to skin and clothing of attackers but is visible under an ultra violet light as used by the Police.

N.B. If the alarm is shaken whilst the cap is pressed down the discharge rate of both the odorous material and ultra-violet tracer will be increased thus intensifying the dispersion of the smell and ultraviolet tracer.

The WE-333 Trident Deterrent has been designed so that it is able to operate at any angle, even upside down.

The lock-down facility on the actuator allows continuous operation if dropped to the ground.

### SPECIFICATION

**Dimensions:** 37mm x 105mm

**Maximum weight:** 65 gms

**Duration:** Approximately 3 minutes

**Aromatic material:** Composed only of components that conform to the UK and European Flavour & Fragrance Legislation. Whilst it would be unpleasant to taste, it would not be detrimental to health.

**Propellant:** Conforms to Euro Directive 3093/94 for aerosol propellants and has an ozone depletion potential of zero.

**Ultra-Violet tracer:** Non-Toxic

A Safety Data Sheet is available upon request.

Conforms to BS6800:86

### WARNING

This product has a 138 decibel sound output (125 decibels being the normal human pain threshold). As a result, prolonged exposure can cause permanent hearing damage.

**DO NOT ACTIVATE THE ALARM UNNECESSARILY.**

**KEEP OUT OF THE REACH OF CHILDREN**

The manufacturer and its agents will not accept any responsibility for any loss, damage or personal injury sustained whilst in the possession of this product whatever the cause or reason.

### Other products in the Walk Easy range of Personal Attack Alarms

#### **WE-900 Emergency Personal Alarm**

138 decibel sound output

More than 6 minutes continuous operation or 300 short blasts

Has a lockdown facility for a continuous sound

#### **WE-200 Key-Ring Personal Alarm**

Small and compact

Attaches to your keys and goes where you go

138 decibel sound output

#### **WE-772 Own-Label Emergency Personal Alarm**

138 decibel sound output

Price includes customers details printed on the label

#### **WE-600 Black Knight electronic Personal Alarm**

138 decibel sound output

Easy to activate with rip-cord

Side switch and wall bracket

Fitted heavy-duty battery included

#### **WE-675 Bright Knight Personal Strobe Alarm**

137 decibel sound output

Easy to activate with rip-cord

Alarm Strobe Light plus a torch facility

Fitted heavy-duty battery included

#### **WE-625 White Knight electronic Personal Alarm**

136 decibel sound output

Easy to activate with rip-cord

Fitted heavy-duty battery included

#### **WE-330 Alert dual-action Personal Alarm**

138 decibel sound output

Releases an ultra-violet tracer which 'invisibly' adheres to skin and clothing of attackers but is visible under an ultra-violet light as used by the Police

#### **WE-331 Bouncer dual-function Personal Deterrent**

Releases an ultra-violet tracer which 'invisibly' adheres to skin and clothing of attackers but is visible under an ultra-violet light as used by the Police

Releases a repulsive odour towards the attacker
